

Startup Studio

for enterprises

If you are Executive and...

- | can influence strategic decisions of the company
- | thinking long-term
- | want to be ready for potential crises
- | know that the company proposition might not last forever
- | are looking for a different source of income
- | **want to pursue ideas and make them real!**

Problems
you are facing

But...

- | You are slowed down by **bureaucracy**
- | You do not have a team with entrepreneurial **experience**
- | You cannot put yours and corporate **reputation** at risk in case of failure
- | You do not have a **team**, good background nor network of specialists
- | In core, you are not as fast in **execution** as startups are

Give us six months and we will convert
your idea into a fully working company.

Bonus benefit: We are always smiling :)

Reasons why

1

We are your co-founders. We build your company with an “out of the box” mindset, at the start, risking our reputation only. It will be your idea only in case of a successful launch on the market.

2

We have the right people and network. We cover all competence to start a business and we are very experienced with hiring relevant employees. You don't have to hire anyone nor build a team.

We can roll our sleeves!

Reasons why

3

We are fast. We understand how important timing is. We are not bounded by bureaucracy. Therefore, we are able to compete with other startups.

4

We have entrepreneurial experience. We have been entrepreneurs for a long time and we have gone through ups and downs. Thus, we know what it takes to keep the risk of failure at a minimum.

What we do

Concept validation

Market Research
Design
User testing
Technical feasibility
Financial forecast

Incorporation

Company set-up
Legal
HR
Operations
Customer care
